## About Us

Hello, welcome to Murmur, the keepsake collection. Through shared stories, we aim to cultivate joy, happiness, and empathy in people. In modern society, we focus too much on material things for all the wrong reasons. Hyper-consumerism and fast fashion have ruined keepsakes. They produce material meant to be discarded. At Murmur, we remind people that we have enough and should cherish these things. We have so many treasures; why do we need more?

Ever wonder how we got our Murmur logo? And the meaning behind it? Well, wonder no more. The logo displays murmur broken in half and flipped upside down. This relays the duality of the brand. While the issues we face are modern and, at times, dystopian, the solution of telling stories is a primordial one. The letters connect on the bottom to abstract the logo and make it look more like heartbeats on a monitor or sound waves, both reinforcing the murmur name.

## Resources

We aren't just a brand; we are a space to grow. We want our users to develop healthier habits. Below are some of our favorite resources to help fight the consumerist mentality. The first step in becoming a better person is changing unhealthy habits. Also, below are resources on hoarding because too much of a good thing really does exist.
